

# LIFE SCIENCES

## TOP-RANKED BUSINESS ENVIRONMENT

Through strategic focus and common-sense spending, Indiana has maintained a balanced budget for years. As a result, already low business taxes are actually trending down and Indiana businesses enjoy remarkable regulatory freedom.

### BIOCROSSROADS INITIATIVE

Corporate, academic and philanthropic partners are collaborating to invest in promising life sciences startups. The initiative supports existing organizations, including Indiana Health Information Exchange, BioCrossroads LINX, OrthoWorx, Datalys Center and the Indiana Biosciences Research Institute.

### THE INDIANA HEALTH INDUSTRY FORUM (IHIF)

This statewide trade association represents members of Indiana's health science business community. The IHIF connects key stakeholders to enhance business networks, advocate for member interests, develop workforce skills and provide a strategic vision for Indiana's health industry economy and reputation.

### THE INDIANA BIOSCIENCES RESEARCH INSTITUTE (IBRI)

This collaboration between life science industry executives and university leaders represents the first independent, industry-led institute in the nation.

## TALENT PIPELINE

Indiana is home to nationally-ranked universities with world class engineering, bioscience and health care degree programs. These institutions play a vital role in Indiana's life sciences capabilities by providing research, education and workforce development. They also drive incubation programs, startup companies, research parks and communication complexes.

### Butler University

- College of Pharmacy & Health Sciences

## MIDWEST SUCCESS

**Roche**

Roche Diagnostics Corporation, which is one of the top biotech companies in the world, hosts its North American headquarters in Indianapolis. The company's Indiana roots, traced back to its founding as Bio-Dynamics, were grown from a one-man, start-up company in a garage to a global leader in less than 50 years.

Roche quickly became a major employer in Indiana, supported by a 160-million campus in northeast Indianapolis that continues to grow and invest in sustainable solutions. Today, the company supports about 4,600 employees across R&D, manufacturing, quality, regulatory, distribution and global shared services. Roche's new 90,000-square-foot education center trains 1,500 customers and hosts 400 health care professionals annually to support pharmaceuticals and diagnostics advancements.
